

THE ARTIST

Roberto Cattaneo

ELECTRONIC ARTIST / DJ — ITALY

Short Bio

Roberto Cattaneo is an Italian electronic artist and DJ exploring the intersection between hypnotic techno, raw driving rhythms, acid influences and emotional electronic landscapes.

His sound is built around deep atmospheres, evolving structures and powerful rhythmic identities, creating immersive experiences designed for both mental exploration and dancefloor energy.

Long Bio

Roberto Cattaneo is an Italian electronic artist and DJ whose project is driven by the search for a distinctive sonic and visual identity. His musical direction moves through hypnotic techno, raw driving grooves and acid influences, while incorporating elements of melodic techno, peak-time energy and deeper electronic atmospheres.

Rather than focusing only on genre boundaries, Roberto's approach is based on creating immersive experiences where rhythm, tension and emotion evolve together. Each performance is conceived as a journey: a continuous flow of sounds, textures and atmospheres designed to create a connection between artist and audience.

With a multidisciplinary creative background and a strong attention to visual identity, Roberto Cattaneo approaches electronic music as a complete artistic expression, where sound becomes a language capable of creating memories and lasting experiences.

**"We are not here to last.
We are here to become what lasts after us."**
